

UK AND EIRE JOINERY CERTIFICATION SCHEME

WOOD WITHOUT COMPROMISE

The Accoya® Joinery Certification Scheme adds credibility to manufacturers as it improves participants' understanding of Accoya® wood.

The **free of charge** education process will involve a presentation with a Q&A session at your premises, aimed at your key production staff.

By the end of the session you should be fully versed in the intricacies of using Accoya® and have a greater understanding of the manufacturing process and the correct use of ancillary materials.

As a **trained user of Accoya®** you will be presented with a certificate to acknowledge your successful completion.
