

Dekodur

This collection is designed to give some indication of the style and quality of materials available from Dekodur, one of Europe's foremost suppliers of High Pressure Laminate surface finishes.

Dekodur boast one of the worlds largest collection of press-plate finishes, combined with an almost endless supply of raw materials, this means that Dekodur have the capability to produce a laminate out of almost anything.

The possibilities are almost limitless.

Just some of the many options available include:

- 30+ press plate texture finishes.
- Solid colour / Solid grade HPL laminate.
- Solid colour / Solid grade Compact laminate.
- Metal structure laminate.
- Magnetic HPL in plain colours, uni-colours, metallic finishes and wood grains.
- Fantasy and wood grain decors.
- Book-matched and bespoke-match wood veneer laminate, with inlays.
- Translucent laminate.
- Heavy wood-grain structure laminates.
- Digital print laminate.
- Real aluminium.
- Mirror laminates.
- Died and brushed coloured metallic laminate.
- Checker plate and other structure pressed metallic finish laminates.
- Combined material laminate: Wood / Metal / Mirror / Uni-colour - using punch hole press plates, creating wood relief effects in metal, translucent or uni-colour reliefs in metal, or visa versa.
- Distressed metal and metal effect laminate.
- Copper laminate.
- Tin laminate.
- Crushed amber pressed in to laminate.
- Real-Art incorporated in to laminate, such as painting and print.
- Oxidised metallic patterns and finishes.
- Gold: genuine gold leaf incorporated in to laminate.
- HPL in glass: toughened glass back with any decor of your choice for depth and three-dimensional effects.
- Tree Bark: renewable material from Africa, harvested and hand-stitched for a truly unique laminate.
