\*FSC Certified

We all have a responsibility to the environment. At Arnold Laver Timber World we are committed to protecting the environment. We strongly believe it is our corporate and social responsibility to preserve world forests and promote effective forestry management. We have accepted the principles of sourcing materials from legal, sustainable, well managed forests and mills. All Arnold Laver Timber World branches in the UK have Chain of Custody implemented, independently evaluated and certified, to provide our customers with environmental assurances.

## Professional Fabrication Services

Together with our extensive range of decorative materials, our fabrication facility offers you unlimited choice and opportunities – we can manufacture almost anything!

At Arnold Laver Timber World we have considerable experience in the supply and manufacture of laminated material, with an in-depth knowledge and understanding of an ever-changing market place.

We recognise that flexibility, reliability and attention to detail are the cornerstones of our operations, and that by focusing on the requirements of our customers, we are able to deliver first class products with a service to match. Our strong customer base, together with an unrivalled reputation for getting the job done, only serves to demonstrate our success.

Relax... we're the real experts in professional fabrication services

# Professional Fabrication

www.timberworld.co.uk

Our Professional Fabrication Services Division has been established for over forty years, which has resulted in extensive experience and knowledge in an increasingly specialised industry.

We have developed our expertise across a wide range of product types and can meet nearly all requirements in terms of bespoke wall panelling, duct panelling, vanity units, cubicles, worktops, units components and frontals.

In addition we also provide a 'bench operation,' which includes facilities such as bevelling, and butt & scribe joints (for worktops), both of which will help reduce time on site.

### Key fabrication services

**Pro-cut** - the optimised cutting of materials utilising the latest high-tec machinery and systems. Helping to ensure accuracy and finishing that meets even the most demanding of customer's requirements.

**Pro-bond** - our pressing facilities allow a wide range of panels to be handled, from small panels through to large sheets 3.6mtrs x 1.5mtrs. Using PVA and FR external adhesives.

**Pro-edge** - using the latest Homag system with PUFR adhesive for a superior bond. A pre-milling unit also ensures every panel is finished with a perfect edge. Grooving and profiling may also be carried out, dependant upon the individual requirements.

**Pro-CNC** - a Biesse Rover 30 machining centre together with the latest software, controls the drilling and boring processes, delivering accuracy and reliability time after time.

**Estimating** - Our system allows us to read and utilise customers drawings via a CAD/CAM facility as well as help guide customers through the ordering process and provide a timely response to each enquiry received.

**Quality** - our production facility is ISO9002 registered and all work is carried out in accordance with the code of practice laid down by the British Laminate Fabricators Association, the trade association that represents the laminate industry in the UK.

**Our Partners** - we work hard to ensure that we have a robust and extensive supply chain in place and believe firmly in a 'partnership approach' to both enhance and develop our relationships.

All our suppliers are approved: Collite for MDF, Woodlam for realwood, laminates and Plasman for Laminate products.

**Environment** - protecting the environment is fundamental to the way in which we conduct our business. We endeavour to ensure that all materials that pass through our branches are obtained from sustainable sources via suppliers that are accredited by the appropriate governing body i.e. FSC and PEFC. In addition, we are strong supporters of the trade associations that promote ethical trading and we are signatories to the Policy for Responsible Purchasing issued by the Timber Trades Federation.

**Our Approach** - We are flexible and reactive to customer demands, within a quality environment that focuses on efficient and effective processes that deliver results.
