

## THE HYGIENIC SOLUTION

Ascot Panels are a great alternative to tiles with the important added benefit of cost and time savings.

There is no need for messy grout where bacteria may linger - Ascot Panels are easily wiped clean and will look as good as new for years to come. If required Ascot Panels can be installed on top of existing tiles.

## EASY TO INSTALL

Installation is quick and easy, saving money in comparison to traditional methods. Corner profiles, end caps, shower tray seals and colour matched sealants (when using 'tongue and groove' joints for the perfect finish) are all available.

Ascot Panels can be supplied complete with a range of required finishing trims - internal corner, external corner, end cap, quad end cap and H section (for joining of square edged boards). All profiles are available in satin aluminium, polished silver, black or white finishes.

\*Panseal provides a long-lasting and watertight fit when installing Ascot Panels with a traditional shower tray.

## TECHNICAL SPECIFICATION
